These workshops will offer an opportunity to learn about the duality in entrepreneurship and innovation, and invite them to think in new ways about themselves, their community, and our connection to the spirit of the land. This series is open to self-identifying Indigenous people across the GTA, with preference given to U of T students, staff, and faculty.

The workshops will be lead by Redbird Circle in partnership with The University of Toronto, bringing an Indigenous and non-Indigenous lens to entrepreneurship. These workshops aim to build traditional knowledge, build community, facilitate partnerships and mentorships, and build pathways to success for Indigenous entrepreneurs.

Spruce: Tinted Powder Dry Shampoo with SPF 20

Do you hate wearing hats? Do regular sunscreen products make your hair greasy? Have you ever experienced a painful sunburn on your scalp? Spruce is the answer to all of your needs.

Spruce is a tinted powder dry shampoo with SPF 20.

It's specifically formulated to provide optimal sun protection to the scalp without making your hair greasy! Spruce is made with natural, mineral-based sunscreen ingredients that are reef-safe, and is found in recyclable packaging.

We created Spruce to help you effectively protect your scalp from the harmful UV rays of the sun. Melanomas found on the scalp have a higher mortality rate due to the difficulty in detecting them. Wearing sunscreen regularly is the easiest way to prevent the development of skin cancer.
